

# egg shell printing

**Introducing** the new series of inkjet markers, heralding a new age of convenience in marking applications, both manual and automated.

## Option #1 – For mobile, manual stamping

HandHeld InkJet Stamp with soft pad

- Mobile inkjet stamp with rechargeable batteries
- Up to 4 customized imprints (one or two line print)
- Automatic advancing of number, date and clock time
- Softpad mount for fast and smooth stamping
- Ink cartridge with special egg ink for up to 15.000 single line prints

1-DE-1234501

## Option #2 – To mount on conveyors

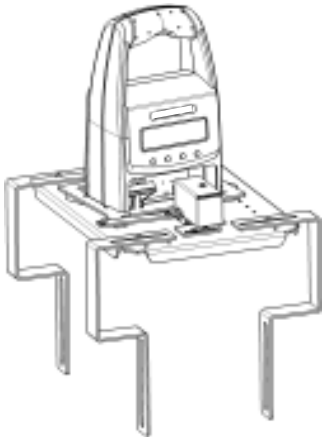

two-tamp systems with bracketry

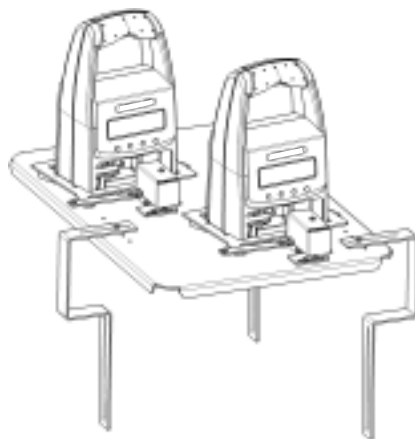

- For one to three conveyor tracks with one Stamp each
- Permanent power supply and automatic triggering of print
- Special controller software and character set
- Stamping without touching the eggs
- Ink cartridge with special egg ink for up to 15.000 single line prints
- Stamps up to 3.200 eggs per hour and conveyor track

1-DE-1234501

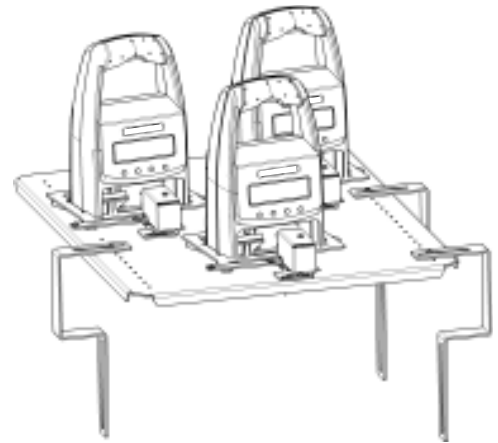

## Different mounting choices

**794100-000**  
1 line, automatic

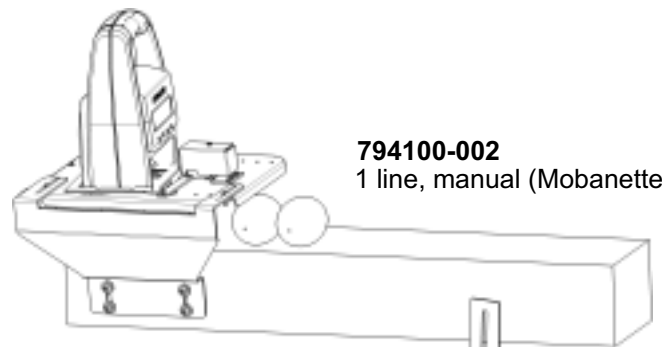

**794400-000**  
2 lines, automatic

**794500-000**  
3 lines, automatic

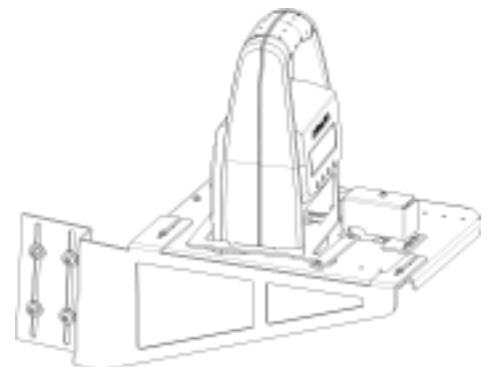

The special ink-jet ink for stamping on egg shells as per EC article 2 clause 9 of directive 94/36/EC dd. 30.06.94 associated to annex V of directive 95/2/EC dd. 20.02.95 is admissible. Confirmation is available.
